

CONTEXT

Some male athletes stand out, their names shining brightly, while countless remarkable female athletes remain in the shadows.

Cultural stereotypes in Georgia frequently dissuade girls from engaging in sports. It's crucial to acknowledge these athletes for their inspirational impact on the next generation, especially given the numerous obstacles hindering girls' participation in sports in Georgia.

OBJECTIVE

To raise awareness of Georgian talented female athletes and create role models for young girls to believe in their own potential and pursue their athletic aspirations with confidence.

Generation Z is known for its proficiency in protesting and heightened sensitivity towards statements that challenge their beliefs and capabilities.

STRATEGY

Instead of resorting to mainstream messages, our approach is **to provoke Generation Z** by questioning **why girls can't participate in sports**.

Once we have their attention, we'll **reveal the female role models** who've been successful in their fields but are not as known as male athletes.

The 2024 Olympics in Paris coming up, so that we aim to feature georgian female contestants as the faces of our campaign.

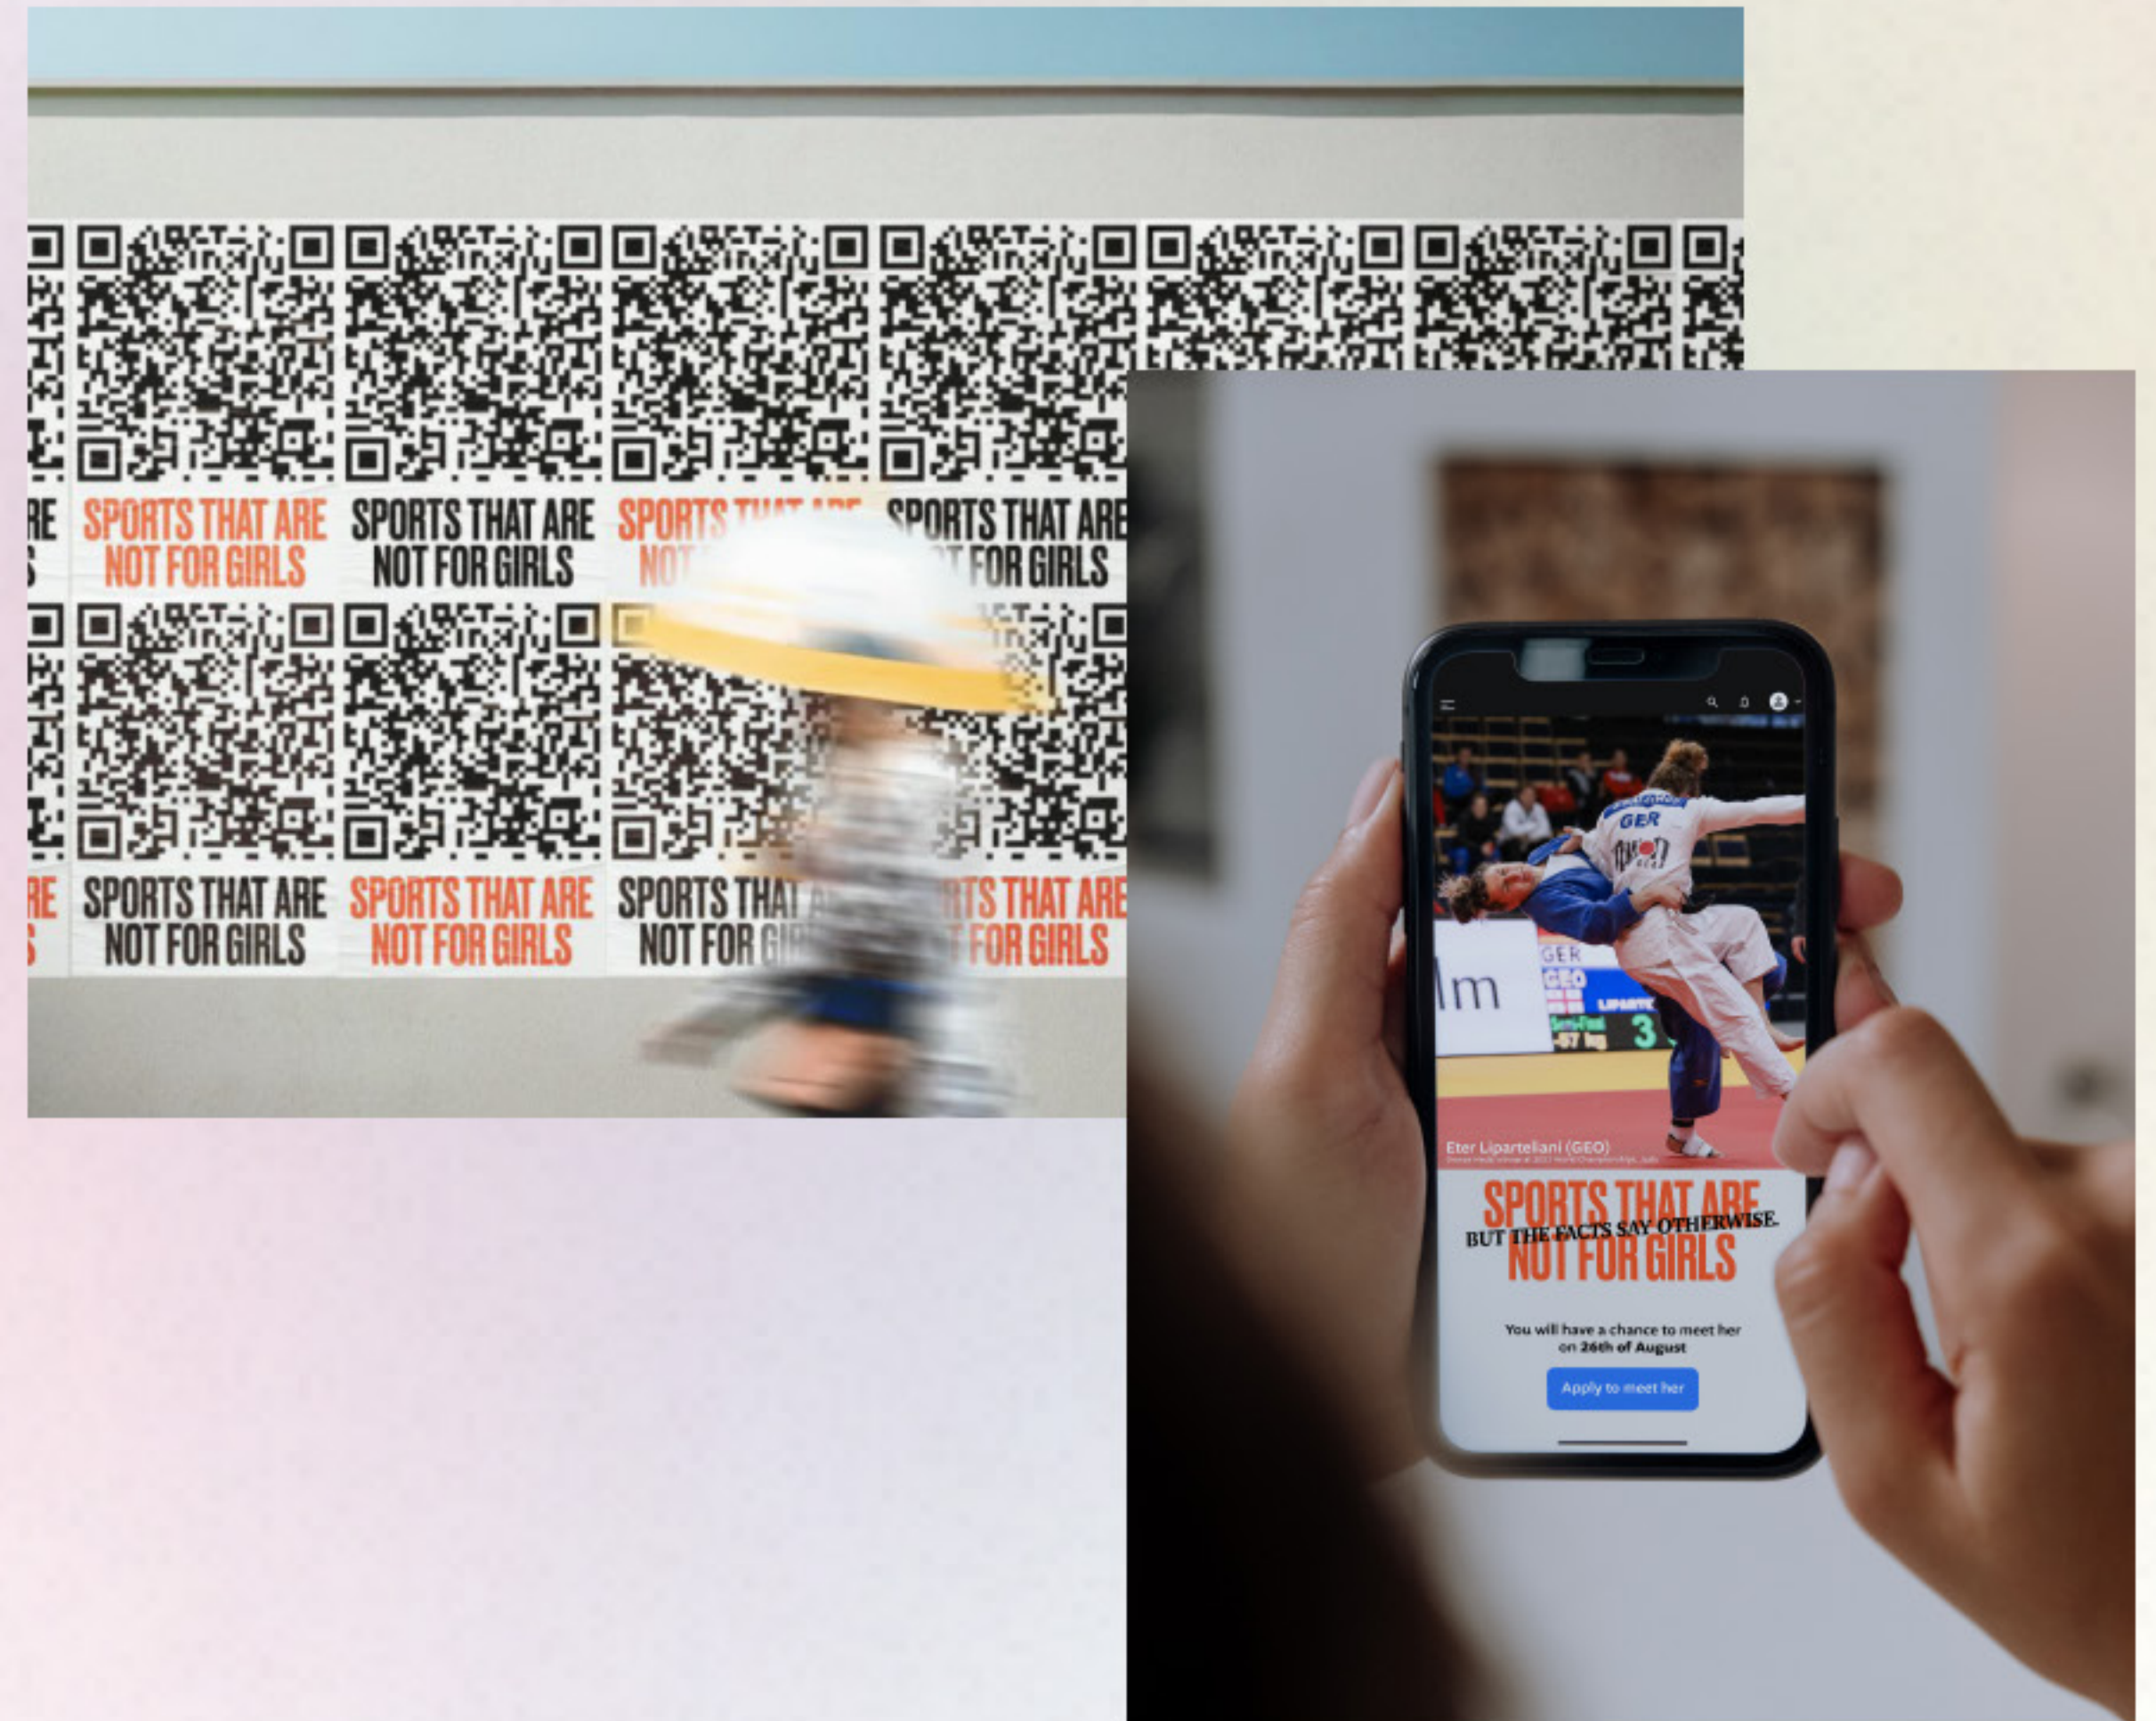

BIG IDEA

Remind youngsters that there are quite a few Georgian female sport athletes who might be their role models and they can break the stereotypes together

HOW

Challenge gender stereotypes with a provocative message **Sports That Are Not For Girls** with QR code to grab youngsters attention and scan the code which leads to a landing page where famous Georgian female Olympic athletes prove that **the facts say otherwise**.
